HIGH-PERFORMANCE LED SOLDERING IRONS

APPLICATION ILLUMINATION
CO-MOLDED, SOFT-GRIP HANDLE
SUPERIOR TIP POSITIONING AND CONTROL

A family of wattages: 15 25 40 80 Find your favorite.

AT WELLER®, WE BRING THE HEAT AND DELIVER INNOVATIVE SOLUTIONS.

We are proud to introduce the new Weller® High-Performance Consumer Soldering Irons with the latest in LED technology and co-molded ergonomic innovation. The world's first co-molded hand soldering iron with three built-in LEDs to deliver the ultimate soldering experience.

Without compromise, Weller® delivers light where you've told us you need it most—the application.

Weller® high performance consumer soldering irons deliver comfort and flexibility.

A round, soft grip, non-slip handle design helps relax the hand during extended use. The round handle easily provides a mechanism to roll and position the tip for application needs.

A triangular front housing captures the LEDs. Once the tip position is determined, the hand naturally gravitates to the triangular area providing a more stable and effective way to control the tip position.

To ensure long-life, Weller® Consumer Soldering Irons come with a high-performance stainless-steel heater, impact resistant housing, and temperature resistant LEDs—all backed by an industry leading 7-year warranty.

CHOOSE THE RIGHT SOLDERING TOOL

● Recommended ○ Acceptable ○ Not Recommended

Micro components, electronic kits, low-voltage wiring	Printed circuit boards, radio controlled, indoor lighting	Hobby models, small appliance, small engine repair, crafts	Audio systems, electrical, marine, jewelry, automotive	Heat sink, ground plane, metal art, plumbing	Soldering Wire Connections	Soldering Tool	Duty	Power	Compatible Tips
●	○	○	○	○	<18 AWG 0.04" dia	Iron Corded SP15N	Light Duty	15 Watts	S5 (included), S3, S31, S32
○	●	○	○	○	<12 AWG 0.08" dia	Iron Corded SP25N	Standard Duty	25 Watts	MT1 (included), MT2, MT3, HK11
