RF Wireless Touching LED Remote Controller
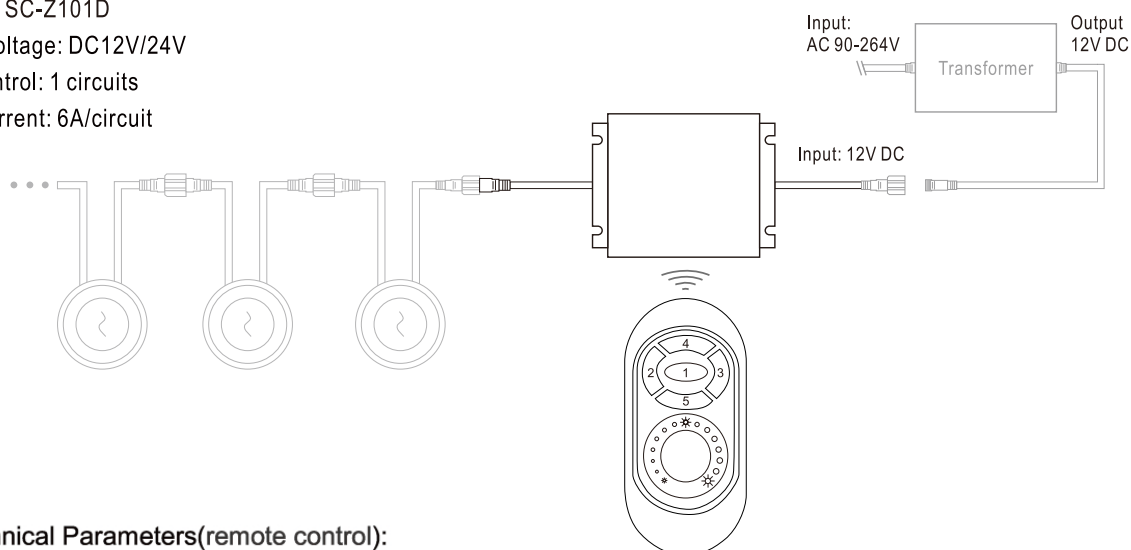

(Brightness Adjusting)

ITEM NO.: SC-Z101D
Working voltage: DC12V/24V
Output control: 1 circuits
Control current: 6A/circuit

Input:
AC 90-264V   Transformer   Output
12V DC

Input: 12V DC

1. Technical Parameters(remote control):
   1:Power supply: AAA battery
   2:Cover material:ABS
   3: Fabrication processing: multicolour printing & UV varnish

2. Technical Parameters(controller):
   1. Working voltage:DC12V/24V
   2. Output control: 1circuit
   3. Control current：6A/circuit
   4. Dimension: L85*W64*H24mm
   5. Receiving range:20meters

3. Functions of Keys
   1. Key 1: flash, change blink speed
   2. Key 2: medium brightness
   3. Key 3: highest brightness
   4. Key 4: on / off
   5. Key 5: lowest brightness

Color ring

Lowest   Highest

4. How to use
   1. Use your finger to touch the color ring , you can change the brightness from the highest to the lowest (100%-1%,50 grades to adjust).
   2. Resume fuction. The previous settings will be resumed while power on again.
   3. Matching code
      Press Key 4 five times within 3 seconds when power on again, the light will blink 3 times if matching is successful.
      Clearing Code
      Press Key 3 five times within 3 seconds when power on again,the light will blink 6 times if clearing is successful.

5. Caution
   Please don't touch or press the color ring while loading the battaries to protect the sensitiveness. Please use the remote controller 3 seconds after the battaries are loaded. Please reload the battaries when you find the color ring is not sensitive.
